

FELASTEC® - accessories for plate-vibrators

We already supply FELASTEC® - bases for the vibratory plates of all makers of compactors: Wacker, Weber, Ammann Duomat, Dynapac, Powerpac and more. We also generally supply prepainted fixing bars, including screws, for all makes. You simply drill these to match your plate.

For many types you can also order fully compatible, ready-to-fit slide plate assemblies. There are various reasons for the appeal our high-quality FELASTEC® - vibratory- compactor bases:

- very high wear-resistance
- no damage to or "rubbing stripes" on paved surfaces (e.g. when loosening pavements)
- marked reduction in noise
- smoother running and better control of your plant
