

FELASTEC® - pad for the road reorganization

As manufacturers of Felastec® chain pad for cold millings such as Wirtgen, Dynapac, Bitelli, ABE, ProCut, Ingersoll, CMI, Catarpillar, Roadtec, we have 20 years experience.

Felastec® possesses a high abrasion resistance as well as tear strength. in connection with optimal traction that results in thus a very long refreshment duration.

Important is likewise the connection between the steel base plate and the plastic. With Felasto PUR is guaranteed this by a special bonding procedure.
