

# FELASTO PUR GMBH & CO. KG

FELASTEC® - plastic in fine form!

We manufacture for you: agricultural machinery accessories for farming and agricultural service supply agency

### Special track chains

For runway crawler-type vehicles, thrust crawler-type vehicles or harvesting and agricultural machines. The flexible crawler-type vehicle bars cause maximum traction with minimum ground pressure.

### Crawler tracks

For better conversion and use of the performance as well as for the reduction of the ground pressure. For all makes. E.G. for potato harvesters, beet harvesters and others.

### Filter stars / sort disks

Made of Felastec® have a long service life to avoid expensive maintenance work. Conditional on our own manufacturing in accordance with your requirements, we can react flexibly.

### Rollers / wheels

Made of Felastec® with high life span and manufactured according to your requirements. Ideally suitable as drive, guidance and supporting rollers. For e.g. potato harvesters.

### Land packer rings

Made of Felastec® for land packer rollers. Easy and little inherence of soil. Most suitable for rotary harrows, grubbers, disk harrows, land packers, land packer rollers etc.

### Tappets

Made of Felastec® - with very high abrasion resistance, flexible and very stable with long life span. Particularly manufactured for your needs. For harvesting machines, potato harvesters.

### Clearing borders / digging borders

We manufacture Felastec® elastic - clearing- and digging borders for all snow plows being in the market

### Drive and star-shaped wheels

Coated with Felastec®. We also remove existing restes of elastomere and coat your wheels with new material.

### Scrapers

Made of Felastec® for rollers, conveyors, packer rings etc. High abrasion resistance and a long life span feature these products.

### Rotors for rotary pumps

(e.g. liquid manure pumps) The elasticity of the special Felastec® - coating optimizes the life span and minimizes the damage danger by foreign bodies.

**Mould parts**  
Made of Felastec®. Conditional on own mould construction we can offer many further products to you. Our production is very flexible. ask us. we'll be glad to advise you!!
